

# System Interface

## Suspension System

CGC offers the following suspension system and edge detail options. Select a suspension system and match it with a corresponding panel edge detail, or vice versa, to assure proper system fit and assembly.

		DX/DXL/ AX/ZXLA	CENTRICITEE DXT <sup>2,3</sup>	FINELINE DXF <sup>2</sup>	FINELINE 1/8 DXFF	MERIDIAN™ DXM	DXW (1-1/2" wide)	CE (Controlled Environments)	DXL Concealed
	<b>Edge Detail</b>								
<b>Square Edge SQ</b>									
<b>Shadowline Tapered SLT</b>									
<b>Shadowline (SL)</b>									
<b>Shadowline Bevel SLB</b>									
<b>Fineline FL</b>									
<b>Fineline Bevel FLB</b>									

1. AX and ZXLA Suspension Systems provide environmental resistance; they have the same profile as DX/DXL and can utilize the same edge details.  
 2. DX/DXL, ZXLA, DXLF, and DXLT fire-rated suspension systems and FIRECODE formulation panels may have restrictions on size and appl

3. Square edge panels are not recommended with 2'x4' modules using 9/16" grid.  
 4. ILT edge is applicable only to Illusion and Pedestals face-cut products.
