

# CGC SHEETROCK® BRAND GLASS-MAT LINER PANELS MOLD TOUGH®

## 25.4 mm (1 in.) glass-mat Type X liner panels with moisture and mould resistance for use in shaft wall and gypsum area separation firewall systems

- Feature a noncombustible, moisture-resistant gypsum core that is encased in a fiberglass face and back that shed water
- Suitable for use in pre dry-in (fast track or pre-rock) and similar applications of panels before the building envelope is fully enclosed
- Comprehensive product and systems testing assures long-term performance and safety
- Double-beveled edges for easy installation
- Quick score-and-snap, no sawing or special tools required
- Comply with ASTM C1658, *Standard Specification for Glass Mat Gypsum Panels*, for 25.4 mm (1 in.) Type X and glass mat water-resistant shaftliner gypsum panel
- Score a "10" when tested in accordance with ASTM D3273, *Standard Test Method for Resistance to Growth of Mold on the Surface of Interior Coatings in an Environmental Chamber*
- Underwriters Laboratories Inc. (cUL) Classification as to fire resistance, surface burning characteristics and noncombustibility
- Guaranteed for five years against manufacturing defects and have a 12-month limited-exposure warranty
- Achieved GREENGUARD Gold Certification and qualifies as a low VOC emitting material (meets CA 01350)

### DESCRIPTION

CGC Sheetrock® Brand Glass-Mat Liner Panels Mold Tough® (UL Type SLX) are 25.4 mm (1 in.) Type X glass-mat liner panels with moisture and mould resistance for use in shaft wall and area separation wall systems. The panels feature a noncombustible, moisture-resistant gypsum core that is encased in a green coloured fiberglass face and back that shed water. When tested in accordance with ASTM D3273, *Standard Test Method for Resistance to Growth of Mold on the Surface of Interior Coatings in an Environmental Chamber*, the panels score a "10" (highest). The fiberglass facer is folded around the double-beveled long edges to reinforce and protect the core, and the ends are cut square and even. The panels are cUL Classified for fire resistance and can be used in any UL Design in which Type SLX panels are listed.

**Note:** CGC Sheetrock® Brand Glass-Mat Liner Panels Mold Tough® have been comprehensively tested for fire resistance, structural performance and sound control only when used with CGC Sheetrock® Brand Shaft Wall framing components. If alternative framing components are used, the manufacturer(s) of the substituted component(s) shall be consulted to confirm system performance.

### INTENDED FOR

- Commercial or residential applications where 25.4 mm (1 in.) moisture- and mould-resistant Type X shaftliner panels are required
- Areas where glass-mat panels are desired
- Loadbearing and non-loadbearing wood- or steel-framed fire-rated walls and ceilings
- Elevator, stair, mechanical, solid and horizontal stud shafts
- Shaftwall ceiling membranes
- Unlined air return ducts
- Fire-resistive protection in common walls for townhouse construction

### LIMITATIONS

1. Avoid sustained exposure to temperatures exceeding 52°C (125°F).
2. Avoid exposure to excessive, repetitive or continuous moisture before, during and after installation. Eliminate sources of moisture immediately.
3. Must be stored off the ground and under cover in accordance with Gypsum Association's GA-801, *Handling and Storage of Gypsum Panel Products*.
4. Not intended for use in an unlined air supply duct.

## LIMITATIONS, CONT.

5. These panels offer resistance to normal weather conditions, but are not intended for constant exposure to water. Protect this, and all similar materials, from immersion in water and the eroding effects of cascading water.
6. Building must be dried-in prior to installation in horizontal applications.
7. Wall cavities, floor cavities and other enclosed areas, including insulation, must be dry prior to being closed-up and application of interior finishing.

## INTERIOR INSTALLATION, FINISHING AND DECORATING

For installation and finishing recommendations, refer to:

- ASTM C840, *Standard Specification for Application and Finishing of Gypsum Board*
- Gypsum Association's GA-216, *Specifications for the Application and Finishing of Gypsum Panel Products* and GA-620, *Gypsum Area Separation Firewalls*
- Published UL Design
- CGC literature *CGC Area Separation Wall Systems Brochure (SA925)* and *CGC Shaftwall Systems Catalog (SA926)*

## TEST DATA

Property		Test Method	Requirement	UL Type SLX
<b>Noncombustibility</b>		CAN/ULC-S114	Noncombustible	Meets
<b>Surface-burning characteristics</b>	Flame spread	CAN/ULC-S102	Flame Spread Index, not greater than 25	20
	Smoke developed	CAN/ULC-S102	N/A <sup>1</sup>	0
<b>Core hardness</b>	Field	ASTM C473 (B)	Not less than 15 lbf (67 N) <sup>1</sup>	Meets
	End	ASTM C473 (B)	Not less than 15 lbf (67 N) <sup>1</sup>	Meets
	Edge	ASTM C473 (B)	Not less than 15 lbf (67 N) <sup>1</sup>	Meets
<b>Flexural strength</b>	Parallel	ASTM C473 (B)	Not less than 80 lbf (356 N) <sup>1</sup>	Meets
	Perpendicular	ASTM C473 (B)	Not less than 230 lbf (1023 N) <sup>1</sup>	Meets
<b>Humidified deflection</b>		ASTM C473	Not Required <sup>1</sup>	N/A
<b>Nail pull resistance</b>		ASTM C473	Not Required <sup>1</sup>	N/A

**Note:**

1. Per ASTM C1658 for 25.4 mm (1 in.) glass mat shaftliner gypsum panel.

## MOISTURE AND MOULD RESISTANCE

Per ASTM C473, *Test Methods for Physical Testing of Gypsum Panel Products*, the average water absorption for CGC Sheetrock® Brand Glass-Mat Liner Panels Mold Tough® is not greater than 5% by weight after two-hour immersion.

In independent lab tests conducted per ASTM D3273 at the time of manufacture, the panels score a "10", meeting ASTM C1658 specifications. This ASTM lab test may not accurately represent the mould performance of building materials in actual use. Given unsuitable project conditions during storage, installation or after completion, any building material can be overwhelmed by mould. To manage the growth of mould, the best and most cost-effective strategy is to protect building products from water exposure during storage and installation and after completion of the building. This can be accomplished by using good design and construction practices.

## PRODUCT DATA

	UL Type SLX
Thickness	25.4 mm (1 in.)
Lengths <sup>2</sup>	2438 mm (8 ft.), 3048 mm (10 ft.), 3658 mm (12 ft.)
Width	610 mm (2 ft.)
Weight <sup>3</sup> , nominal	19.5 kg/sq. m. (4.0 lb./sq. ft.)
Edges	Double-beveled

### Notes:

2. Other sizes available by special order. Check with your local CGC representative for availability.
3. Represents approximate weight for design and shipping purposes. For specific product weight in your area, contact your local CGC representative or call the Customer Service Center at 800 387-2690 (English) or 800 361-1310 (French).

## COMPLIANCE

- Comply with ASTM C1658 for 25.4 mm (1 in.) Type X and water-resistant shaftliner gypsum panel
- cUL Classification as to fire resistance, surface-burning characteristics and noncombustibility
- Achieved GREENGUARD Gold Certification and qualifies as a low VOC emitting material (meets CA 01350)

### PRODUCT INFORMATION

See [cgcinc.com](http://cgcinc.com) for the most up-to-date product information.

GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit [ul.com/gg](http://ul.com/gg).

### CAUTION

Dust may cause irritation to eyes, skin, nose, throat, and upper respiratory tract. Cut and trim with a utility knife or hand saw to minimize dust levels. Power tools must be equipped with a dust collection system. Wear eye, skin, and respiratory protection if necessary. If eye contact occurs, flush thoroughly with water for 15 minutes. If irritation persists, call a physician. Do not swallow. If swallowed, call a physician. For more information please visit [cgcinc.com](http://cgcinc.com) to view the Safety Data Sheet (SDS).

**KEEP OUT OF REACH OF CHILDREN.**

### TRADEMARKS

The trademarks CGC, MOLD TOUGH, SHEETROCK, IT'S YOUR WORLD. BUILD IT., the CGC logo, the design elements and colours, and related marks are trademarks of USG Corporation or its affiliates.

### NOTE

Products described here may not be available in all geographic markets. Consult your CGC Inc. sales office or representative for information. The information in this document is subject to change without notice. CGC Inc. assumes no responsibility for any errors that may inadvertently appear in this document.

### NOTICE

We shall not be liable for incidental and consequential damages, directly or indirectly sustained, nor for any loss caused by application of these goods not in accordance with current printed instructions or for other than the intended use. Our liability is expressly limited to replacement of defective goods. Any claim shall be deemed waived unless made in writing to us within thirty (30) days from date it was or reasonably should have been discovered.

### SAFETY FIRST!

Follow good safety and industrial hygiene practices during handling and installation of all products and systems. Take necessary precautions and wear the appropriate personal protective equipment as needed. Read Safety Data Sheets and related literature on products before specification and/or installation.
